EDGE and AMBIPAR Partner to Deliver Mission-Critical Communication Solutions for Global Operations

- The strategic agreement was signed by AMBIPAR’s CEO Tércio Borlenghi Jr. and Waleid Al Mesmari, President of the Space and Cyber Technologies (S&CT) cluster at EDGE Group

Abu Dhabi, UAE: 19 May 2025 - EDGE, one of the world's leading advanced technology companies and defence groups, has announced the signing of a strategic Letter of Intent (LOI) with AMBIPAR Group, a leading Brazilian multinational specialising in environmental management and emergency response services. The agreement marks the beginning of a potential strategic collaboration aimed at strengthening the resilience and confidentiality of AMBIPAR’s global operations, particularly in mission-critical communication environments.

Driven by a commitment to reinforce its global operational capabilities through cutting-edge technology, AMBIPAR intends to acquire a suite of KATIM’s integrated solutions, including 50 units of the KATIM X3M ultra-secure smartphones and 1,000 user licenses for the KATIM X4 ultra-secure communication platform, alongside associated implementation and support services.

With a presence in more than 40 countries globally, including in the Americas, Europe, Africa, and the Middle East, AMBIPAR offers innovative solutions in emergency response,

waste management, logistics, and sustainability to clients across a broad range of industries, including oil and gas, mining, chemicals, logistics, and manufacturing.
