EDGE Signs MoU with ADG Mobility to Manufacture Specialised Land Systems Equipment in the UAE

- EDGE Group entity TRUST and ADG Mobility have entered into a preliminary agreement to collaborate on design and production of specialised land systems equipment in the UAE.

TRUST, an entity of EDGE and a keystone of national security and defence capability that delivers top-tier equipment, advanced technologies and unparalleled services, has signed a Memorandum of Understanding (MoU) with ADG Mobility, a South Africa-based company specialising in the production of protected vehicles, subsystems, and components. The agreement was announced during the Make It in the Emirates forum, taking place at the Abu Dhabi National Exhibition Centre from 19 to 22 May.

Under the MoU, the two parties will establish a strategic framework for future collaboration on the design, development, and manufacturing of specialised land systems equipment, including specialised vehicles, in the UAE.

The MoU was signed by Dr. Jasem Alzaabi, Vice President of Business Development (Trading & Mission Support) – EDGE, and Dr. Stefan Nell, Chief Executive Officer of ADG Mobility, in the presence of Dr. Abdulmunem Alshehhi, Chief Operations Officer – TRUST, and Syed Haroon, Manager of Engineering and Development - TRUST.
