EDGE Launches Next Generation Secure Applications Platform KATIM 2.0

Secure communications firm KATIM builds the UAE's only applications platform that leverages national cryptography, and ensures data sovereignty and ultra-secure collaboration

Abu Dhabi-UAE: 21 February, 2023 – EDGE, one of the world's leading advanced technology groups, today launched KATIM 2.0, a next generation secure application platform that features secure messaging, voice-calling, conferencing, file storing, and file sharing in a single secure communication and collaboration platform.

Designed for governments, federal entities including the military, law enforcement, presidential affairs, and health departments, KATIM 2.0 is purpose built to serve ultra-secure and government-grade consumption. Developed from the principle of 'zero trust', KATIM 2.0 leverages the latest technology, integrates multiple ultra-secure communication and collaboration functionalities, and provides trusted security that is usable, efficient, and effective.
