EDGE Demonstrates its Advanced Law Enforcement Capabilities at World Police Summit 2023

EDGE's national security arm BEACON RED showcases its broad range of policing solutions during the 3 day event held at the Dubai World Trade Centre

EDGE entity BEACON RED, an advanced solutions provider that focuses on tackling complex national security challenges, announces its participation in World Police Summit 2023, where it will display innovative solutions intended to aid future law enforcement training initiatives and policing techniques.

Speaking on their participation, BEACON RED CEO Mauricio de Almeida said, "World Police Summit presents a great opportunity to meet with our customers and industry colleagues in the law enforcement space. As an advanced technology provider focused on enhancing national security ecosystems, we are enabling the UAE to secure its critical infrastructure and assets, keeping pace with the continuous change in technological advancement to help clients stay mission-focused and ahead of the curve."

Displayed at the event is BEACON RED's suite of law enforcement and national security enhancement services and solutions including immersive training solutions, range on wheel (ROW) cyber testing range, and radio frequency (RF) monitoring capabilities.

Attendees of World Police Summit can visit BEACON RED at stand 6 E22 at Dubai World

Trade Centre from 7 to 9 March, 2023.
