BEACON RED Wins Global Award for its Innovative Education Programmes

Global education provider Anthology recognises BEACON RED's outstanding Knowledge Management department and advanced training programmes at the Catalyst Awards 2023

BEACON RED, an EDGE Group entity, announced that it has been selected as a winner in the Teaching and Learning category at the Catalyst Awards 2023 – a prized recognition for innovation and excellence in education. Organised by Anthology, a leading provider of education solutions that support the entire learner lifecycle, the Catalyst Awards recognise institutions that have used Anthology solutions, such as Blackboard, in innovative ways to advance learning. BEACON RED's knowledge management team will be honoured alongside other Catalyst Award winners during Anthology Together, Anthology's annual conference being held from July 17-19 in Nashville, Tennessee.

Mauricio De Almeida, CEO of BEACON RED, said, "We are honoured to be presented a Catalyst Award this year, especially as the sole institution representing the UAE. Our Knowledge Management team's remarkable achievements position us as a global learning leader and strategic partner to organisations working across a broad spectrum of critical industries. The dedication and speed of our team drives value for all of our stakeholders, not only ensuring that we stay at the forefront of knowledge sharing but empower organisations to excel in their own learning endeavours."
