EDGE to Showcase Latest Advanced Technology and Defence Solutions at Eurosatory 2024

- Group’s first participation at Europe’s leading defence exhibition
- Over 50 advanced solutions on display including autonomous air systems, land systems, smart weapons, and secure communications

EDGE, one of the world’s leading advanced technology and defence groups, will be making its first appearance at Eurosatory 2024, the largest international exhibition for land and air defence systems, taking place in Paris, France, from 17 to 21 June, 2024. The group will enjoy a major presence at the biennial event, with eight of its portfolio companies in attendance and over 50 advanced products and solutions on display.

EDGE will be showcasing its diverse range of cutting-edge capabilities, tailored seamlessly to the specific requirements of international customers, and aims to strengthen current regional partnerships and explore new mutually-beneficial commercial opportunities.

Hamad Al Marar, Managing Director and Chief Executive Officer of EDGE Group, said: “This is the first time we are at Eurosatory, a major global industry exhibition that provides us with a critical opportunity to showcase our portfolio of solutions, which have been expertly-selected according to our insights into the global defence landscape, including the European defence theatre. We will be looking to strengthen our current cooperation with existing partners as well as forge new collaborations in Europe and beyond.”

Over the course of the five-day event, EDGE will demonstrate its understanding of the European security landscape, such as the critical demand for operational readiness, international supply chain reinforcement and access to advanced autonomous aerial systems, land systems, cyber defence infrastructure and secure communications solutions, with a showcase of innovative systems which can respond to these regional challenges.

Under autonomous air systems, EDGE will display the HUNTER series of loitering munitions, the HUNTER SP (Soldier Portable) unmanned aerial vehicle (UAV), the HUNTER 2-S UAV system, the QX-1, QX-2, QX-3, QX-4 and QX6-50 fixed-wing loitering munitions, the JENIAH collaborative combat UAV, the GARMOOSHA rotary-wing UAV, the SHADOW 25 and 50 loitering munitions, and the powerful logistics AIR TRUCK UAV.

For land systems, EDGE will display an extensive suite of its multi-purpose, operationally-proven THeMIS unmanned ground vehicles (UGVs), its Type-X robotic combat vehicles (RCVs), its special operations vehicle LRSOV and its armoured personnel carriers, the AJBAN MK2 and HAFEET MK2.

From its range of smart weapons, EDGE will display its cost-effective, multi-range THUNDER and DESERT STING air-to-surface precision-guided munitions, the Rash 1-M, Rash 2-M, Rash 2-H and Rash 3-H precision-guided munitions systems and the SKYNIGHT air defence

missile.

Under secure communications, EDGE will showcase the KATIM line of infrastructure security smartphones, ultra-secure endpoint solutions, satellite communications and GATEWAY network encryptors.

EDGE will also showcase its suite of LAHAB DEFENCE SYSTEMS medium and large calibre munitions, as well as a full range of LAHAB LIGHT AMMUNITION small calibre ammunition.

Attendees of Eurosatory 2024 can visit EDGE at the UAE Pavilion, located in Hall 5A, Stand E416.
