EDGE Signs Two MoU Agreements with Cummins Arabia

EDGE Group entity, AL TAIF, will seek to collaborate with Cummins Arabia on various marketing, sales, maintenance, and servicing activities of Cummins engines, parts, and other products, including rugged mobile power (RMP) products.

EDGE Group entity, AL TAIF, the UAE's leading military maintenance, repair and overhaul (MRO) service provider of comprehensive lifecycle support for land platforms, heavy utility vehicles and ground support equipment to the UAE Armed Forces, has signed two Memorandum of Understanding (MoU) agreements with Cummins Arabia, part of Cummins Inc., a power solutions leader that pioneers new technologies with a broad portfolio ranging from engines to generators.

As per the first MoU, the two companies will collaborate to support the sales, maintenance and servicing activities of Cummins engines, parts, and other products for the UAE Armed Forces and other government entities. The second MoU stipulates the joint collaboration of AL TAIF and Cummins Arabia for the marketing, promotion, and sales of rugged mobile power (RMP) products.

The agreements were signed at EDGE Group headquarters in Abu Dhabi.
