EDGE Entity MALATH and ERA RF Technologies Collaborate to Deliver Satellite Communication Capabilities

- The MoU demonstrates ERA RF Technologies' commitment to supply MALATH with advanced satellite communication terminals and ground modems for end users

MALATH, an EDGE Group entity focused on facilitating trade with Turkish companies, has signed a Memorandum of Understanding (MoU) with ERA RF Technologies, Türkiye’s leading provider of advanced communication solutions. Signed by Mr. Ali Demirhan, CEO of MALATH and Mr. Adnan Kaya, CEO of ERA RF Technologies, at SAHA Expo 2024, the MoU outlines MALATH’s commitment to facilitating the acquisition of advanced satellite communication terminals and ground modems. The systems are designed to enhance operational capabilities in satellite communications, secure data transmission, and real-time connectivity across mission-critical sectors.

Taking place from 22-26 October, SAHA Expo 2024 in Istanbul provides an ideal platform for EDGE to strengthen its collaboration with Turkish partners, reinforcing the robust and growing ties between Türkiye and the UAE. The event also serves as a catalyst for fostering further collaboration in high-tech sectors, enabling both nations to exchange expertise, explore new partnerships, and showcase their advancements in defence technologies.
